Explore Euro Options

Headquartered in the sunny North West of England, Euro Options has been successfully distributing IT products globally since 1998.

With over £700 million in sales, more than 850 items sold daily and a huge stock inventory at great prices, there's a wealth of reasons to partner with us.

We also have an easy-to-navigate online stock check service and are proud to be able to provide a quote in under 15 minutes.

Once you've selected your products and made your purchase, we'll carefully prepare and ship your parcel on whatever delivery service you need. We can even configure it before it is dispatched, giving you complete confidence your goods will be ready to use on arrival.

Our Products

Uninterrupted power supply

Safeguard your business and benefit from near instantaneous protection from power interruptions, with Euro Options' range of UPS products. We stock a variety of products designed to protect your hardware by allowing your servers to be shut down safely, keeping your operations running smoothly until you are back online.

Networking

Utilising the expertise of Cisco and HPE networking products, including routers, switches and wireless technologies, Euro Options can work with you to help maximise speed, information access and enhance customer experience when it comes to its business networking.

Refurbished

Did you know we offer refurbished products?

Green IT

Complementing its IT distribution service, Euro Options offers a lifecycle service to assist businesses save money by recycling or re-using their existing IT equipment.

We'll help you realise the residual value in your dormant IT equipment and provide a responsible asset disposal service to ensure you're legally and socially meeting the eco requirements of your business and saving money.

Servers

Improve your business' IT service delivery with server solutions that help reduce company expenditure, whilst increasing capacity.

Euro Options has a range of software-defined, cloud-enabled enterprise products to help ensure you're up to speed.

Storage

Looking for industry-leading, enterprise storage or integrated systems products?

Hewlett Packard Enterprise offers data storage solutions which are efficient, flexible, fast and application-integrated. From high-performance, entry-level storage systems to mid-range or enterprise, Tier-1 storage solutions, HPE has you covered.

Pick.....

Enterprising Options

With a stock inventory of over £8 million and the very latest in product offerings, we're always thinking innovatively to ensure we're at the top of our game so you can rest assured you'll be at the top of yours.

Working with leading brands such as Hewlett Packard and Cisco, we ensure we remain up to date with all the industry developments, so you don't have to. And if we don't have something you're after, we're confident that given our extensive supply network we'll be able to source it for you.

And we don't just stock the latest products, we also hold many of the obsolete and discontinued lines essential for the maintenance purposes, making us a one stop shop for all your hardware requirements.

As well as offering incredibly competitive prices on a broad range of goods, we also provide a guaranteed 15-minute quote time to ensure the highest level of customer satisfaction.

IT Support

Extended Options

Our additional support services mean that every customer can benefit from having immediate access to a global 24/7 helpdesk. A single point of contact means there's no need for you to contact multiple vendors, saving you time and money.

As well as tailored support, we help maintain IT hardware regardless if it is current or end-of-life.

Whether it's to impart our expert advice and guidance or to offer technical IT support services upon receipt of your purchase, our friendly, approachable team is at your disposal.

Why choose EO for support?

- Global 24/7 helpdesk
- Extend the life of your hardware
- Single point of contact
- Tailored to your requirements
- Free configuration on all EO hardware
- Expert maintenance service

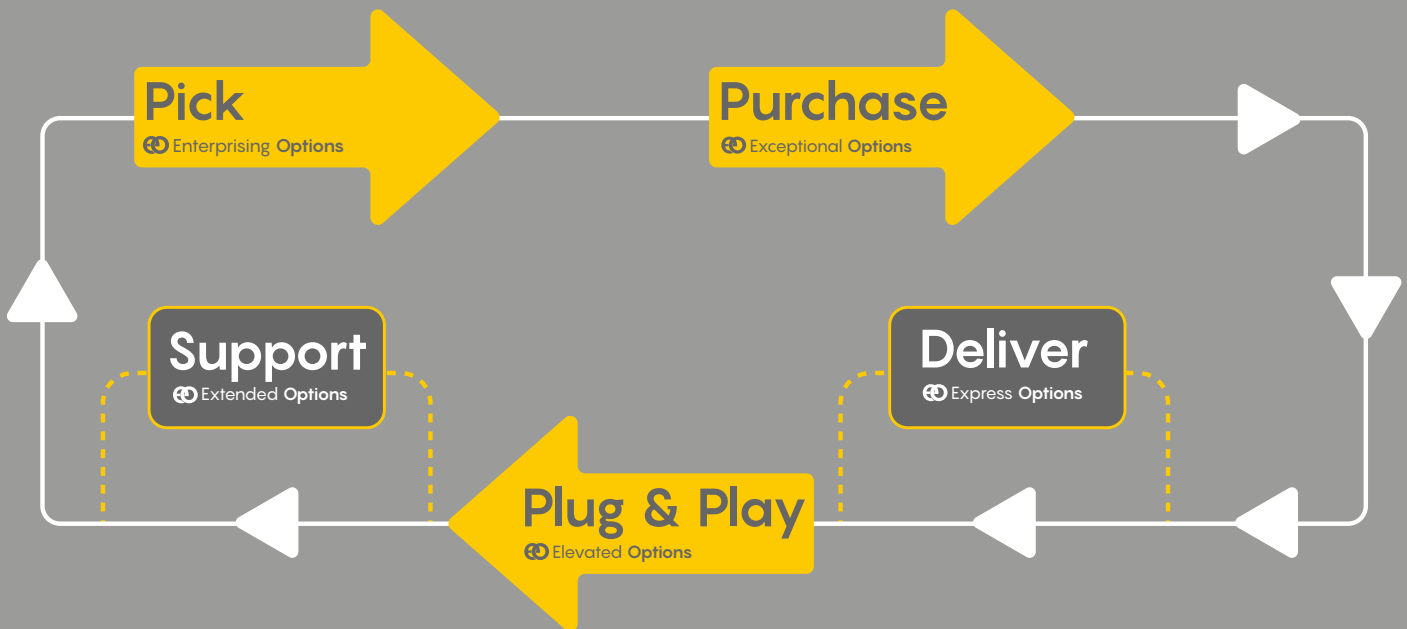

Tailored Configuration

- Euro Options offers a full suite of configuration services meaning your hardware is ready to install and use straight out of the box, saving you valuable time and money.
- Our highly trained technicians are at hand in our state-of-the-art configuration centre to build, configure and test whatever solution you require. As well as configuring your hardware we can also install any software needed.

Our Process

We believe that a partnership is for life and as a result ensure we are always at hand to make your life easier, to streamline your customer services and provide unbeatable support as and when you need it.

We are flexible when it comes to our pricing and pride ourselves in offering enterprising options so that you can always be ahead of your game.

Our Service

Our friendly, helpful and experienced team is at hand to help you every step of the way, whether it's providing advice, information or ensuring that you are able to provide the best possible customer experience to your clients.

Once you open an account with us, you'll be appointed your own dedicated account manager, who can support your requirements and who fully understands your business needs.
